CommKal Hosting Solutions is required to maintain a specific utilization percentage of our IP address blocks. The information used to assign an address block must be written and kept on file. Please read this carefully and select your address block wisely. Address Assignments will be based on estimated usage. You will be assigned a network (or subnet) equal to or less than the number of addresses requested. REMEMBER, you can request more numbers later if you need them, up to the maximum allowed on the server plan you have purchased.

of IP addresses requested: _____ Estimate # Required in 6 months: _____

Generic Reverse Entry

Every address requires **Reverse DNS Entries** to match the IP address to the domain.

Please enter your Domain: _____

Additional IP Assignment Request

If requesting an additional IP assignment, you may be required to return your existing assignment(s) and re-number your network with the new address block.

1) Existing IP Address Block(s)	# of Hosts
_____	_____
_____	_____
_____	_____

2) If the IP Addresses are used for Web Hosting or IRC, Please attach a list of each IP# and it's corresponding Domain Name. A Reverse DNS Template is acceptable.

Reverse DNS Authority

If assigned a Full Class C address block, CommKal Hosting Solutions will grant you Reverse Authority privileges provided you comply with the following policies:

- 1) All IP addresses must have legitimate reverse entries.
- 2) Maintain a reverse entry for your default gateway which will be assigned.
- 3) All domains in your reverse entries must be registered with your server as primary or secondary nameserver.
- 4) All domains in your reverse entries must have a legitimate Technical Contact with working telephone number and e-mail address.

CommKal Hosting Solutions will periodically check your reverse entries for compliance.

CommKal Hosting Solutions reserves the right to revoke the Reverse Authority privileges at any time.
